

Humidifier Cleaning and Care Checklist

Once before first use, then daily and weekly. Stick it next to your humidifier.

◆ Before first use

- ☐ Soak the tank for 1 hour in lukewarm water + 1 tbsp citric acid
- ☐ Scrub corners with a long brush; rinse until there is no smell
- ☐ Ultrasonic — clean the transducer gently with a soft brush (never scrape)
- ☐ Warm mist — descale the heater with citric acid as the manual directs
- ☐ Evaporative — check the wick filter replacement schedule
- ☐ Stand it upside down to dry completely

◆ Daily

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Empty, rinse and refill with fresh water	☐	☐	☐	☐	☐	☐	☐
Check indoor humidity is 40–60%	☐	☐	☐	☐	☐	☐	☐

◆ Weekly

	W1	W2	W3	W4	W5
Clean the tank with citric acid (1–2 times a week)	☐	☐	☐	☐	☐
Wipe the mist outlet and base tray	☐	☐	☐	☐	☐

◆ Never

- Add cleaners, disinfectants, fragrances or essential oils to the water
- Fill it without rinsing out the citric acid thoroughly
- Top up old water with new water
